RISE N SMOKE PIT

API tokens

Create new token

API tokens secure the communication between an app integration and your merchant account. An API token gives permission to access and create merchant data, such as payments, orders, and inventory. It can also be used to integrate online payments with your ecommerce website. [Learn More](#)

⚠️ Don't share API tokens with parties you don't trust or with developers building apps for the Clover App Market.

Tokens

Token name	Integration type	
RISE N SMOKE	Rest API
